CISCO WEBEX ROOMKIT

CISCO WEBEX ROOMKIT USB

Cisco Webex Room USB is the lighter version of RoomKit Mini and has been specially designed for huddle spaces. It is very easy to set up, use and manage. Cisco Webex Room USB combines webcam, microphones and speakers on a single device.

Number of people: between 2 and 5 people | Field of view: 120° | Integrated speaker and microphone

€1,273
EXCL. VAT

BENEFITS:

- + Share your content wirelessly without the need for external keys or devices.
- + Plug in to your PC and start a meeting
- + Bring your screens to life with the Webex Control Hub signage mode.
- + Get AI features such as people counting, best overview and audio fencing, a virtual barrier that cuts out noise from outside the meeting room.

CISCO WEBEX ROOM KIT MINI K9

Cisco Webex Room Kit Mini is a videoconferencing system based on artificial intelligence and specially designed for small rooms. It is very easy to set up, use and manage. Cisco Webex Room Kit Mini combines Codec, webcam, microphones and speakers on a single device.

Number of people: between 2 and 5 people | Field of view: 120° | Integrated speaker and microphone

€2,722.99
EXCL. VAT

BENEFITS:

- + Room Kit Mini has powerful integrated cameras providing smart views and automatic noise cancellation.
- + This videoconferencing system has dual content sources, wireless sharing and 4K content.
- + The Room Kit Mini USB passthrough enables interoperability.

CISCO WEBEX ROOM KIT K9

Cisco Webex Room Kit is a videoconferencing solution that works perfectly with a flat screen for small and medium-sized meeting rooms with up to 7 guests, using a compact and elegant design. With high-end 5K camera, speakers and microphones, Cisco Webex Room Kit is a simple and effective teamworking tool, the capacity of which is increased when it is used via CloudPBX with Cisco Webex.

BENEFITS:

- + Takes smart views of small rooms with a discrete integrated camera.
 - + Automatically detects meeting guests and provides ideal framing.
 - + Speaker tracking: Detects and switches from one active speaker to another, and provides ideal framing.
 - + Great audio experience with integrated microphones and speakers; adds elegance to the room without having wires or microphones on the table.
-
- + Automatic noise suppression reduces disruptive sounds coming from the meeting room (e.g. typing, paper rustling).
 - + Simplified meeting-join experience with One Button to Push (OBTP) for scheduled devices in a Cisco Webex meeting, whether registered on-premises or to the Cisco Webex Cloud.
 - + Automatic wakeup: The system “wakes up” when someone walks into the room, and recognises them through their mobile device.

CISCO WEBEX ROOM KIT PLUS

Cisco Webex Room Kit Plus provides a videoconferencing solution specifically designed for meeting rooms with up to 14 guests, using a compact and elegant design. Four 5K Ultra HD cameras, optimised speakers and six high-end microphones make Cisco Webex Room Kit Plus a simple and effective teamworking tool, the capacity of which is increased when it is used via CloudPBX with Cisco Webex.

BENEFITS:

- + 4K content sharing via HDMI or Bluetooth on one or two screens
 - + Flexible use: built for both on-premises and Cloud deployment through CloudPBX with Cisco Webex
 - + Automatic system activation when someone enters the room, echo cancellation control
-
- + Optimised for Cisco Telepresence Touch 10 or any other mobile peripheral compatible with Cisco Webex Teams
 - + Smart meetings: through the powerful integrated cameras, you benefit from smart display features including automatic framing and speaker tracking. Artificial intelligence also enables the automatic cancellation of background noise and the use of voice commands for dialling
 - + Smart presentations: the solution allows for presentations of exceptional quality, handling up to three screens, different content sources, wireless sharing and 4K. View white boards and shared annotations using Cisco WebexBoard, and add to the white boards using the Cisco Webex Teams app
